XBMC Media Move For PC

XBMC Media Move is an easy-to-use auto multimedia file transfer tool for XBMC Media Center. XBMC Media Move is the ideal candidate to automate XBMC Media Center. It finds, transfers and plays a wide variety of multimedia formats, and supports multiple tasks simultaneously.... XBMC Video Player is a powerful application to help you play various multimedia files from your local computer or network in your XBMC Media Center. With this software, you can easily control your XBMC Media Center from your computer by opening files from your local computer or network. You can add an icon to the OSD, to allow easy access to transcoding tools, e.g. the new LogoX XBMC Media Center logo, the new XBMC Logo, and the old XBMC logo. When using the new logo in logon window, the OSD will need to be pulled down to change the logo so it can still be displayed in the OSD area when the login screen is on-screen. You can import video and audio tracks from your XBMC Media Center media library into either ID3 or WavPack Tag Editor. You can also add new ID3 and WavPack TAGs to your local media library and the newly added ID3 or WavPack TAGs will be added to the imported multimedia files. Add new album cover art from your local PC. Add comments to the imported multimedia files using ID3 or WavPack, and edit either artist, album or track comment. The 2D Barcode Reader supports the extraction of data stored in a 2D Barcode image and the transfer of the data into a text format or a standard database, such as MS Access, Microsoft Excel and so on. The 2D Barcode reader can be used to scan Barcodes in images and directly set the Barcode data into either a database or a text format, such as a table in Microsoft Excel, Microsoft Access, and so on. The Barcode reader supports DATABASE FORM, WORD and EXCEL file inputting. Barcode can be set into a DATABASE or a WORD or EXCEL file with a few clicks. The Barcode Reader will automatically detect the destination of the Barcode and automatically output the Barcode data into a DATABASE or WORD or EXCEL file. It is very easy for
